## MIZUNO CREW 21

# MIZUNO GLOBAL SUSTAINABILITY

MIZUNO CREW 21 was launched in September 1991 as our global sustainability commitment to protect the planet for future generations. As Mizuno recognized that all corporate business activities

affect the environment, we focused on contributing to the preservation of the global environment with our company activities every day. Starting April 2021, we have been designating all the Mizuno Sustainability activities as **"MIZUNO CREW 21"**

We will contribute to social, economic, and environmental sustainability, as well as the fulfillment of our relevant activities by integrating innovations and constantly improving our products and services. We endeavor to ensure a future in which people cultivate a healthy mind and body through sport.

## VISION

We believe in a sustainable future in which all people live equally on a safe and healthy planet. While respecting the dignity of all people, we will continue to nurture a beneficial future, where sports can be enjoyed anytime, anywhere and without reservation.

## MISSION

To protect our planet earth, the stage on which we play sports. By integrating innovations in our products and services, based on science, for the benefit of society and inspired by nature, we endeavor to ensure a future in which people cultivate a healthy mind and body through sports.

## PURPOSE

MIZUNO CREW 21 is our global sustainability commitment to protect our planet for future generations.

## ENVIRONMENT

We are committed to achieving a sustainable society through actively contribute to the conservation of the global environment in all business activities and actions of all individuals.

As we provide products and services that embody the diverse value of

sports, protecting the global environment where people around the world can live with peace of mind and play lively sports is an important issue.

## HEALTH

Believing in the collective power which sports can contribute to the mental and physical health of people.

Sports have the ability not only to maintain physical and mental health, but also to foster communication across countries and generations by contributing to bring out the potential of people and regions.

Mizuno supports more people to access sports and contributes to the realization of a richer and more sustainable society in which each person can shine.

## HUMANITY

United in respecting diversity to contribute to the realization of a future in which all people respect, understand and accept each other.

We believe in a world in which all people can live in equally. To bring us closer to that – our company respects the diversity of all people and provides better sporting equipment, places and opportunities for playing sports to all, regardless of nationality, race, gender, age or physical ability, through our sincere business activities.

## ***FOOTWEAR***

# WAVE NEO ULTRA

INSPIRED BY NATURE / DRIVEN BY PERFORMANCE.

This eco-conscious shoe offers unprecedented comfort that makes running a joy. It is loaded with Mizuno's signature cushioning and energy return features, including MIZUNO ENERGY CORE which boasts the highest functions of the MIZUNO ENERGY series. With this shoe, Mizuno strives to care for the environment through materials with low environmental impact, reduction in dyeing water and CO2 emissions.

## BENEFITS

- Dope-dyed yarn, coloured pellets are added during the yarn making process, thus no water is needed to dye the yarn
- MIZUNO ENERGY LITE, uses plant-based materials and offers excellent cushioning, energy return and lightness, is inserted in the top midsole.
- MIZUNO WAVE, the midsole with its wavy structure is composed of two layers, which differ in hardness, boosts stability without sacrificing cushioning
- G3 Outsole provides strong grip at a light weight

## REACH THE SKY

This shoe offers a feeling of floating while running. Its features include the MIZUNO ENERGY CORE for cushioning and energy return, MIZUNO WAVE technology for great stability, and the woven material provides a soft & smooth fit. This is the ultimate comfortable shoe for runners of all body types to sail through their runs.

### BENEFITS

- MIZUNO ENERGY CORE / MIZUNO ENERGY: You can feel the soft cushioning and high energy return.
- MIZUNO WAVE: Enhances stability without sacrificing the floating feel while running
- Smooth Stretch Woven - The material offers a soft & smooth fit by slowly stretching horizontally without stretching vertically. By reducing the thickness of the fabric and adopting a new design that weaves air vents into the vamp, breathability is improved for an even more comfortable fit.

# WAVE HORIZON 6

FLOATING STABILITY

The Wave Horizon 6 redefines the limits of comfort in a support shoe. Combining MIZUNO ENERGY CORE and MIZUNO WAVE, it is highly stable without sacrificing cushioning. Experience a floating feeling with a kick of energy return that will make you want to run to new horizons.

## BENEFITS

- MIZUNO ENERGY Core for incredible comfort and high energy return.
- MIZUNO WAVE combined with rubber side walls placed strategically to stop the foot from overpronating
- Outsole with a wide design
- Smooth Stretch Woven material for a secure and comfortable fit

# WAVE INSPIRE 19

## PREMIUM SMOOTHNESS WITH SUPPORT

Get inspired and move forward with this shoe designed for comfort and propulsion. Amazing cushioning and energy return is provided by the MIZUNO ENERGY FOAM which is inserted throughout the entire midsole. This keeps the foot comfortable while also giving a more propulsive, springy feel. The enhanced shape of the MIZUNO WAVE offers even better stability, with an anatomical plate shape that follows the shape of the foot.

### BENEFITS

- MIZUNO ENERGY, which provides amazing cushioning and energy return, is inserted throughout the entire midsole.
- MIZUNO WAVE (Support type) - Wave shape designed for people with overpronation. Changing the inside and outside shape helps stop the foot arch from collapsing and offers high stability. The anatomical plate shape follows the shape of the foot for smooth weight transfer from ground contact to propelling forward.

## EVERYDAY STABILITY SHOE

Your runs will be smoother than ever with this shoe equipped with MIZUNO ENERGY. The MIZUNO ENERGY Foam in the heel wedge offers great cushioning and energy return. The DOUBLE FAN SHAPED WAVE is designed for overpronation and enables smooth body movement.

### BENEFITS

- MIZUNO ENERGY Foam in the heel wedge provides amazing cushioning and energy return
- DOUBLE FAN SHAPED WAVE. The wave shape is specially designed for overpronation. Combining the signature cushioning and stability of Mizuno Wave, the lateral side of the wave plate has a one-wave structure for cushioning while the medial side utilises a double fan-shaped wave that enables smooth body movement and prevents the foot arch from collapsing.

THE SMOOTHNESS FOR EVERY SPEED

Achieve your fastest runs ever with this shoe fully loaded with Mizuno's signature features. The SMOOTH SPEED ASSIST helps runners achieve the ideal gait, while the soft MIZUNO ENERGY LITE in the bottom midsole and MIZUNO ENERGY LITE + in the top midsole support faster runs. The MIZUNO WAVE enhances stability while retaining softness, and the G3 outsole offers great grip

## BENEFITS

- SMOOTH SPEED ASSIST - Supports runners to use what Mizuno considers to be the ideal gait from the start to finish of races.
- MIZUNO ENERGY LITE and MIZUNO ENERGY LITE + - Soft materials providing high energy return are used in the top and bottom midsole to support speed running.
- MIZUNO WAVE - The carbon-infused wave plate enhances stability during speed running without skimping on softness.

FLASH OF LIGHT

This shoe helps you run at high speeds without scrimping on comfort. The MIZUNO ENERGY LITE/FOAM material used throughout the midsole supports high-velocity running. The MIZUNO WAVE enhances stability without losing comfort. Plus, the G3 outsole is lightweight and offers excellent grip.

## BENEFITS

- MIZUNO ENERGY LITE/FOAM - Soft material providing high energy return is used throughout the entire midsole (LITE on top, FOAM on bottom) to support speed running.
- MIZUNO WAVE - The Glass Fiber Reinforced Nylon Wave Plate enhances stability during speed running without skimping on softness. The plate is
- inserted all the way to the forefoot to support comfortable forefoot propulsion during speed running.
- G3 sole - The lightweight, high-grip outsole supports speed running.

## STEP UP FOR SPEED RUNNING

This shoe is perfect for runners who are committed to steadily improving their speed and skills. The MIZUNO ENERGY FOAM in the top midsole provides amazing energy return. The MIZUNO WAVE Plate offers great stability and cushioning. Extending the plate to the forefoot offers even higher energy return. The X10 sole featuring wear-resistant rubber provides durability.

### BENEFITS

- MIZUNO ENERGY FOAM - This soft material which provides high energy return is used in the top midsole to support speed running.
- MIZUNO WAVE - This shoe has a Wave Plate. The Wave Plate offers both stability and cushioning. The Wave Plate extends to the forefoot for even more energy return, which supports speed running.
- X10 sole - The outsole is made from highly wear-resistant rubber for outstanding durability

# MORELIA NEO IV B JAPAN

REFINED FOR SPEED.

Boost your techniques with a shoe that offers a barefoot feeling engineered with numerous improvements. This real K-Leather football boot achieves a barefoot feeling combined with tough durability that will hold strong as you achieve your best speeds ever.

## BENEFITS

- Superior K-Leather provides a quilted luxurious feeling and enhanced sense of touch.
- Updated with a knit pattern that aims for even more of a barefoot feel around the boot opening
- Use of a softer material for the upper midfoot mesh pursues even more of a barefoot feel
- Redesigned eyelet arrangement minimizes creasing when flexing and conforms better to the foot
- Ultra-light External counter outsole (nylon x TPU resin)
- Updated outsole with a stiffer shank for enhanced stability
- Suitable for all surfaces (soil, artificial grass, and natural grass)

## LIGHT UP THE COURT.

The Wave Luminous 2 is a "Hybrid Power" indoor shoe, combining a soft running-like cushioned sole to a comfortable and secure upper construction. The full woven DynamotionFit bootie construction gently locks down your foot and provides an ideal fit, while the new MIZUNO ENERGY midsole offers a best-in-class cushioning like never experienced before.

### BENEFITS

- The double density Mizuno Foam Wave offers a unique softness and stability experience.
- The new MIZUNO ENERGY technology used in the full length of the shoe offers best-in-class cushioning.
- The full woven DynamotionFit bootie structure offers a highly comfortable and snug fitting.
- The flat sole with a smooth heel wrap up provides a smooth role-off from heel to toe.

# WAVE VOLTAGE

## SURGE OF AGILITY.

This high-performance Volleyball shoe offers great dynamic cushioning and stability featuring the Mizuno Wave Technology. Thanks to its technical and lightweight sole, the Wave Voltage delivers great acceleration even in the most intense lateral movements. The mesh-based upper with a no-sew construction on the lateral side brings a great comfortable fitting.

### BENEFITS

- The Mizuno Wave technology provides dynamic cushioning and high stability.
- The D-Flex Groove technology generates great acceleration by naturally guiding your feet movements.
- The Dynamotion Grooves ensure high flexibility in the forefoot.
- A spacer mesh used with a no-sew construction on the lateral side brings great upper comfort and increased fitting.

# WAVE ENFORCE TOUR

## ENFORCE YOUR STRENGTH

This shoe is specially designed to enhance stroke motions to keep you powerful until the very end of the match. It is equipped with MIZUNO ENERGY CORE for energy return and cushioning against strong impact against the court, which supports translational movement. The flat sole and outrigger support strong rotational movement. The new Dyna-Heel Lock structure also improves the fit and stability of the ankle and heel.

### BENEFITS

- Stroke motion (translational motion / rotational movement) are important for this
- To create translational motion, the heel and ball of the toe are equipped with MIZUNO ENERGY CORE for high energy return. Designed to cushion impact from the ground and achieve smooth weight transfer from the heel to the big toe.
- To support strong rotational movement, the flat sole and outrigger are adopted to widen the sole gauge, and CPU is applied to the upper to enhance the outer grip and stability.

### USP

Other companies have stability models for baseliners in their lineups, but they all have concepts focused on footwork. The Wave Enforce Tour is a stability model that focuses on continuously hitting the ball with strong strokes.

### TARGET CONSUMER

For serious level (advanced level) baseliners and rearguard players. For players who play with strokes while keeping a firm grip on the ground, as opposed to players who tend to move lightly. For players who develop their game aggressively with powerful strokes.

# WAVE EXCEED TOUR 5

## NEXT LEVEL LIGHT.

Take lightweight cushioning to another level. You can stay on court all day long with one of the lightest shoes on the market. MIZUNO ENERGY is utilized in the heel, for an extremely high level of energy return and responsiveness from the first serve to the final point. A luxurious, yet lightning-fast shoe designed for the active player.

### BENEFITS

- MIZUNO ENERGY Foam × Foam Wave provide an even more comfortable feel from the moment you put the shoe on through the Foam Wave loaded with MIZUNO ENERGY, offering great cushioning and energy return.
- The upper construction with a mesh base offers softness from the initial fit and a lightweight look.
- Highly cushioned insole.
- Made with a comfortable last and a relaxed wide fit.

# WAVE EXCEED LIGHT 2

## LIGHTER EXCELLENCE

You don't need to compromise on cushioned comfort just because you want a lightweight shoe. Because it is loaded with Mizuno's signature features, this shoe offers overwhelming cushioning at the same weight or lower than models by competing companies. The features include MIZUNO ENERGY Foam x Foam WAVE for cushioning and energy return, a comfortable last in a spacious width, and the mesh-based upper construction for lightweight softness even when flexing.

### BENEFITS

- MIZUNO ENERGY Foam x MIZUNO WAVE: Experience enhanced comfort during wear due to the MIZUNO ENERGY offering amazing cushioning and energy return plus MIZUNO WAVE.
- RB line starting from the vamp: The line gives the shoe a more speedy, innovative look.
- Heel shape: The higher heel height and outward curved shape provide the look of speed plus a great fit.
- Highly cushioned insole

# WAVE ENFORCE TOUR PADEL

## ENFORCE YOUR STRENGTH

This shoe is specially designed to enhance stroke motions to keep you powerful until the very end of the match. It is equipped with MIZUNO ENERGY CORE for energy return and cushioning against strong impact against the court, which supports translational movement. The flat sole and outrigger support strong rotational movement. The new Dyna-Heel Lock structure also improves the fit and stability of the ankle and heel.

### BENEFITS

- To create translational motion, the heel and ball of the toe are equipped with MIZUNO ENERGY CORE for high energy return. Designed to cushion impact from the ground and achieve smooth weight transfer from the heel to the big toe.
- To support strong rotational movement, the flat sole and outrigger are adopted to widen the sole gauge, and CPU is applied to the upper to enhance the outer grip and stability.
- The new Dyna-Heel Lock structure at the opening of the shoe is used to improve the fit and stability of the ankle and heel of baseliners, who tend to move laterally.

## ULTIMATE PERFORMANCE.

Top players will achieve their best performance ever with this shoe that supports them from the ground up. It provides unprecedented enhancements like the new Stepillar sole structure for side cushioning, a feature not offered by any other company. The FOAM WAVE structure also offers shock-absorbing cushioning and softness, while the Dyna-Heel lock provides stability with an improve fit. The shoe also looks amazing with the dual-color eyelets and new RB logo design.

### BENEFITS

- [Top-of-the-line MEDAL model offering firm foot support for advanced players]
- Stepillar: Adding Stepillar to the outsole surface enhances the side cushioning and eases the burden on the foot when making dynamic steps.
- FOAM WAVE: The structure combining wavy foam materials of different hardness provides both cushioning and stability while aiming for softer contact with the ground.
- Dyna-Heel Lock: Improves the fit from ankle to heel as well as stability during movement at a high competitive level.
- Eyelets and shoelaces in 2 colors: Features a novel eyelet and shoelace design.

# ***TECHNICAL***

## ***GLOSSARY***

# TECHNICAL GLOSSARY

## WAVE TECHNOLOGY

	<b>Parallel Wave</b> Wave technology which uniformly disperses shock throughout the sole, providing excellent cushioning and enhanced stability.		<b>Fan-shaped Wave</b> Wave technology which features various Wave heights, delivering excellent cushioning and stability.
	<b>Infinity Wave</b> Wave technology with a more visible and effective construction. Two parallel plates that sit together with soft cushioning pillars in-between to provide unrivalled cushioning and improved durability by absorbing and dispersing the impact at foot strike.		<b>Double Fan-shaped Wave</b> Wave technology that gives the highest levels of support combined with excellent cushioning.

## ALL SPORTS

	Inspired by nature, Wave is a unique midsole technology that provides both cushioning and stability. Wave's unique shape absorbs and disperses the impact at foot strike, which results in a smoother, more cushioned feel on every step.		ap+, a lightweight midsole compound offering rebound and cushion durability, providing a high level of comfort.
	The DynamotionFit system uses highly advanced motion capture and biomechanics technology. Mizuno has developed a design blueprint to engineer shoes that work with your foot throughout the gait cycle.	<b>AIRmesh</b>	Breathable and cool, AIRmesh allows each running shoe from Mizuno to maintain a high standard of breathability and comfort of the upper.
	Cool and Dry. Mizuno Intercool solves the problem of heat and humidity build-up in a running shoe. It does this by incorporating a full-length ventilation system in the sole of the shoe that removes heat and humidity from the foot through a system of ventilation channels.	<b>Removable INSOCK</b>	Removable insock for comfort and cushioning.
	An advanced lightweight cushioning material that absorbs shocks and keeps the transition smooth and fast due to its quick rebound properties.	<b>Premium INSOCK</b>	A high-grade removable insock for comfort and cushioning.
	MIZUNO COB (center of balance) is a midsole structure with multiple pods that activate body awareness to increase balance.		Provides a well cushioned landing with amazing energy return. This midsole material surpasses all expectations of comfort set by previous materials.
	Redefine what Energy return should feel like with this super soft and bouncy midsole material created by Mizuno for our top line products.		

# TECHNICAL GLOSSARY

## RUNNING TECHNOLOGIES

<b>AeroHug</b>	The new MIZUNO upper technology holds the foot stable during the run for a secure fit and an unrivalled comfort. A soft fabric mesh stretches and wraps around the foot to create the most comfortable ride.		Pebax® Powered Wave Plate for lightweight energy return
<b>X10</b>	Durability and Traction. X-10 is an extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and gives more traction at the heel strike.		The Wave Plate is constructed with a bio-sourced Pebax Rnew® plate. This provides extremely lightweight support and energy return, empowering athletes with every step.
	XtaRide, Mizuno's technical trail concept featuring X lugs and Xta groove, leads to trail shoes that adapt to their surroundings and work in perfect harmony with the body.		An evolutionary lightweight midsole that delivers stress-free cushioned rides with high rebounds. It gives an energised, euphoric and super-comfortable run.
	G3, an advanced performance outsole component that enhances traction where needed most and reduces weight.	<b>ESS Rock Plate</b>	An extra solid sheet rock-plate in the forefoot which provides superb protection against stones and rock.
	A unique midsole compound providing high comfort and performance, while being extremely lightweight.		Waterproof, breathable fabric membrane upper technology.
	An original rubber compound developed by Michelin that provides more grip and comfort.	<b>Blown Rubber</b>	The pressure absorbing blown rubber outsole optimizes pressure distribution throughout the forefoot.
	An engineered approach to minimise the rapid acceleration and deceleration of the foot during transition, creating the smoothest ride possible.	<b>XPJP</b>	A completely new type of midsole compound that delivers cushioning, rebound and durability at a high level. The exquisite harmony of the super soft and advanced cushioning with high energy return makes you feel as if you are floating on water.
<b>WAVEKNIT</b>	A knit construction inspired by our Mizuno Wave technology. It's dynamic stretch and hold abilities provides a sock-like fit that feels natural every step.		A outsole construction that provides superior grip on various surfaces thanks to it's adaptive abilities. Allows for high traction on soft surfaces and high friction on firm surfaces.
<b>ELB</b>	A lightweight midsole compound providing high level cushioning and rebound for energy efficient runs.		

# TECHNICAL GLOSSARY

## FOOTBALL & RUGBY TECHNOLOGIES

	A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.		Grippy insock material that stops the foot from sliding inside the shoe.
	Upper delivers a high level of softness and durability with a structured fit.		R-Fiber mesh controls the upper stretch and securely holds the foot during acceleration and turns.
	A unique midsole compound providing superb comfort and performance, while being extremely lightweight.		Highest kangaroo leather quality for premium comfort fit and natural ball touch.
	It is a revolutionary concept, with an integrated memory foam construction which controls three key performance characteristics: Fit, Stability and Touch.		

## RACKET SPORTS TECHNOLOGIES

	A unique upper providing the highest level of softness and durability, while maintaining breathability.		A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.
	An exceedingly lightweight midsole material with excellent comfort and resilience properties.		Durability and Traction. X10 provides extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and provides more traction at the heel strike.
	Dynamotion Groove - an innovatively constructed outsole using specifically designed flex grooves to improve stability and on court agility.		The BOA Fit System contains three integral parts: a micro-adjustable dial, super-strong lightweight laces, and low friction lace guides. It is engineered to optimize fit and provide precision, adaptability, and control.

# TECHNICAL GLOSSARY

## INDOOR TECHNOLOGIES

	A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.		An exceedingly lightweight midsole material with excellent comfort and resilience properties.
	A performance outsole component that enhances traction where needed most.		Specifically designed flex grooves in the outsole to improve stability and on court agility.
	Dura Shield protects your toes and increases the product durability.		Super soft and durable synthetic collar lining insert which adds comfort and durability when using ankle braces.
	A shock-absorbing cushioning compound.		

# TECHNICAL GLOSSARY

## APPAREL TECHNOLOGIES

	Mizuno DryLite technology draws excess moisture away from the body, creating a comfortable and dry microclimate for best performance.		Mizuno FreshPlus technology adds an anti-bacterial and deodorising function to your garment, creating a fresher and odour reducing product.
	Mizuno Bodymapping technology provides enhanced air circulation inside the garment, keeping the body cool and dry.		Mizuno DynamotionFit technology is based on anatomical research to create patterns that give improved garment fit and full freedom of movement.
	Mizuno's BIOGEAR is based on in-depth scientific research into the human exercise physiology and biomechanics. It helps to maintain body balance, improve performance and reduce the fatigue of muscles and joints during sport by controlling stretch, pressure and shape.		CoolTouch technology provides a soft feeling and leads to extremely quick drying.
	Mizuno ImpermaLite technology provides a performance blend of water and wind protection combined with superior breathability.		BlindStitch construction provides flat seams for anti-abrasion and enhanced comfort.
	NightLite, with its reflective material, provides superior retro reflection for low light running.		Breath Thermo is an extremely innovative thermal fabric yarn. It captures escaping body heat and, through a patented reaction in the yarn, generates heat-returning warmth to the body.
	Mizuno Warmalite technology recycles body heat, creating an insulating warm layer between body and garment.		SolarCut technology reflects sunlight ultraviolet waves by reducing the light transmission and thus keeping the body cool.
	Saving water with pure performance. Waterless dyeing process, without added chemicals, that saves up to 25 liters of fresh water per tee shirt dyed.		Keeps high breathability in case of sweaty. Dry material with high heat release. Keeps high breathability in case of sweaty. Dry material with high heat release.
